Babbitt Bandits Lose To Truckee In 8 to 4 Contest

Four runs in the first inning gave the Truckee Mountaineers a substantial lead over the Babbitt Bandits in a good game played on the Truckee diamond Sunday and as a result the locals tightened their lead on second place in the Sierra Nevada League.

Truckee scored another three runs in the third inning and put the final touch on in the eighth with one to make the score 8 to 4.

Summit Visitor Is Declared Suicide

Coroner Alvah Hooper said Robert Loyal Metzger, 51, a resident of Wofford's Motel on Donner Summit since June 16, committed suicide Monday morning by shooting a .300 calibre rifle bullet through his head.

Metzger, who came here from Wichita, Kansas, to visit relatives, had been employed at the motel. Friends said he had been despondent recently.

Max Charles, operator of the resor, told Hooper that Monday he made a trip to the bank in Truckee, returning to his business shortly after 10:30 a.m. Mrs. Williams, also employed there, advised Charles that something was wrong as a door leading into a supply room had been locked. Charles went to a side window and discovered the body of Metzger in his room, the rifle nearby.

Metzger's daughter, who had been here for some time, had left Thursday to return to Wichita for a visit.

The body was brought to the Truckee Colonial Mortuary and Wednesday was shipped to Wichita for funeral arrangements. Charles flew east to notify the family.

State Authorizes Remote Control Road Signs Here

Radio Controlled Signs To Advise Conditions Of Highways

The California Highway Commission has authorized spending $17,000 for experimental radio-con trolled signs to keep motorists informed on changing road conditions at the higher elevations of U.S. 40 over Donner Summit in the Sierra Nevada, the CNS at Sacramento reports.

The new signs will replace old-style wooden signs at the customary winter control points. As road conditions change, the signs will be instantaneously changed by radio from the highway maintenance station near the summit.

Each sign will have three rotating prisms which, when used in various combinations, will describe road conditions as "Chains Required Ahead," "Road Clear Over Summit," "Road Closed over Summit," Road Clear, Icy Ahead," and others.

The lettering will be12 inches high and the signs will be lighted at night.

More Funds For Prosser Approved

An amendment to increase the authorized legislation of the Washoe Project by $2 million Friday was passed by the Senate and sent to the House, according to United Press International.

The amendment, already approved by the reclamation bureau and the bureau of the budget, would provide funds for immediate construction of the Prosser Dam and Reservoir portion of the project.

Meanwhile, Sen. Alan Bible, sponsor of the amendment to provide additional funds, said they were necessary because of increased construction costs since the original measure was passed in 1956.

He was confident the California compact commission would withdraw its protests to Prosser.

Bible said he received assurances form the chairman of the California agency it would not fight the appropriation bill if the bureau of reclamation would comply with California law and obtain a water right's permit prior to starting construction.

California members of the California-Nevada Interstate Compact Commission protested earlier they had not had time to study the Prosser proposal. They requested a review of plans before agreeing to the Prosser installation, Bible said.

The Prosser portion of the Washoe Project would be a non-reimbursable feature of the project because it would be constructed with fish and game funds.

The dam and reservoir, which would store 30,000 acre feet of water, would alleviate flood danger from heavy runoff from Lake Tahoe down the Truckee and provide valuable fish and wildlife protection.

LIVE HERE

SUNBEAMS

By WALTER M. BARRETT

High winds, which have dried the forest and brush, are creating a fire hazard and causing some concern with the forest service as well as other citizens. During the coming holiday — and for that matter from now until snow falls — everyone using the forests is asked to exercise extreme caution with matches, cigarettes and camp fires. The wind can easily whip a very small smoldering ash into a gigantic forest fire. Flipping burning cigarettes and matches from cars is especially dangerous and motorists are again warned that this is a violation which will not be tolerated. We are losing out forests fast enough with timbering, Christmas trees and insects and it is incumbent upon everyone to see to it that carelessness does not result in further heavy losses.

The National Safety Council has predicted that nearly 500 people will die in traffic accidents in the U.S. during the coming holiday weekend. Let us see to it that none of these occur in this region. We can do just that if everyone obeys the law. Make it a safe and sane Fourth by driving carefully.

SEVEN LOCAL HOMES GO UP IN SMOKE TO PROVIDE FOR ROAD

Seven Truckee homes went up in smoke last night, but it was in line with progress.

The buildings were purchased from their former owners by the state for the new freeway. Later they were sold to William Markell and Emma Flynn, but the new owners were unable to have them off the right of way on the date allowed and yesterday they were destroyed.

Huge bulldozers flattened the structures and pushed them into three piles and Fire Chief N. F. Dolley supervised the controlled burning.

The home were formerly those of Ed Meiss, A. Pesce, Charles Harvey, Martin Johnson and two belonging to A. Filipcic.

New Lifts Given Approval During Olympic Meeting

Agreement Made To Use All Facilities During Games

Plans for the construction of two new ski lifts for the 1960 Olympic Winter Games at Squaw Valley were announced Tuesday by Charles R. Blyth, chairman of the California Olympic Commission.

In a meeting at the Russ Building, the commission approved an agreement with the Squaw Valley Development Company calling for the construction of a 5200-foot chair lift on the mountain, KT-22, to cost approximately $175,000 and a 3845-foot chair lift to extend from 7000 feet of lift already available on Squaw Peak, at an estimated cost of $180,000.

The agreement provides for the long-range operation of all lifts in the valley including the 3250-foot state-owned chair lift on Papoose Peak, and guarantees the State both a 10-year rental fee for its facilities, plus a share of the profits.

The Company, of which Alex Cushing is president, will build the KT-22 lift on company-owned land, while the commission will construct the shorter Squaw Peak facility wholly on Forest Service property.

Under this agreement, the commission requires the company to grant public skiing rights over all company land in the area.

Two Drown While On Outing Near Rainbow Tavern

Rescue Attempt Fails As Uncle Follows Girl To Death

A Sacramento man and his 7-year-old niece drowned Sunday near Rainbow Tavern while fishing in the South Fork of the Yuba River.

Placer County Sheriff William Scott identified the victims as Antonio P. Araujo, 39, of 2125 Meadowlark Lane, Sacramento, and Rosie Jo Perea, the child and her parents, Carmen and Jake Perea of New Mexico were visiting Araujo and his wife at their cabin near Rainbow.

Mr. and Mrs. Perea, who witnessed the accident said their daughter and Araujo were a short distance downstream from them when the girl attempted to lie on a boulder to drink from the stream. She slipped and fell into the icy water.

Mrs. Perea said she screamed, and Araujo turned, saw the girl in the water, and jumped in after her.

The girls father ran to the spot where the pair has disappeared, saw Araujo struggling in the water and grabbed him, but the strong current pulled Araujo from Perea's grasp. Neither he nor the girl were seen again.

Sheriff Scott, accompanied by the Auburn first aid squad and a number of U.S. Forest rangers, searched the stream for a considerable distance below the point of the accident.

A skin diver also searched the pool where Araujo and his niece disappeared, but the icy water forced him to halt the search.

STRICTLY STRICKLAND

By Bill Strickland

The regular meeting of Donner Summit Post No. 811 will be held on Tuesday, July 8, at Beacon Hill Lodge. Plans will be finalized for the installation barbecue for August. All of next years officers should be present for this meeting to acquaint themselves with their duties for the coming year. Don't forget now, next Tuesday, July 8, Beacon Hill Lodge, 8 p.m.

While writing Beacon Hill Lodge it has reminded me that its owner, Elmo Moriano is installing a very necessary and welcome addition on his lot just west of the Lodge. In case you've wondered, it will be a very modern, all facility, trailer park. It is bound to succeed!

At least 50 per cent of the construction works in the area own mobile homes and up until now there has been an acute shortage of space.

Fran and Art Couillard and Mrs. Lois Hack have moved back into the Hack Shack at Kingvale Park for the summer months.

Peg Travis has taken up residence at Beacon.

Bob Dunshee's mother and father have been spending part of June at their Kingvale cabin.

Larry and Marge Rowton left their daughter, 5 year old Susan, with grandmother and grandad, Goldie and Ralph Rowton. When she returns home she will be replaced by 4 year old Carla. At the end of Carla's tenure, two year old Lauren will visit with mother and dad.

Ted and Dally Reynolds and daughter Trudy are vacationing at the Reynolds menage. When they return to the City, Dick and his wife and youngster will take over.

The road to The Palisades is now navigable so summer home owners in that area will probably be arriving en masse for the 4th of July holidays.

Also the road to the Cedars. Roy

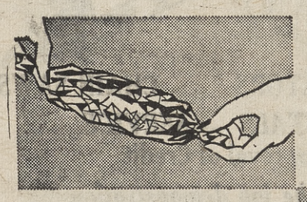
New Cookout Treat

Pronto "Roasting Ears"

with an Italian accent

It's easier than shucking an ear of corn to fix this unusually delicious corn-off-the-cob for your next barbecue. First, tear off a large square of Reynolds Wrap. The rest of the recipe is about this easy.

Pour one 12-oz. can Niblets corn, drained, and ⅓ cup of Kraft Italian Dressing into foil.



Bring together two opposite edges of foil and double fold. Twist open ends tight. That's all there's to it, and they'll taste like you fussed for hours.

Now, heat the "roasting ears" for 10-15 minutes on side of grill (in space not used for meat). This recipe delights 4 to 5 people and there are no pots or serving dishes to wash.

NEWS NOTES FROM TAHOE

by MYRTLE CARNELL

HOME FROM HOSPITAL

Mrs. Charles Beardsley is now at home from the St. Mary's hospital in Reno where she was very ill for 10 days. Although she is still feeling very weak, she is much improved and would enjoy short visits from her many friends.

Also home after a siege of the croup is Steven Dee DeWalt. Little Stevie couldn't quite figure out why he couldn't get out of bed and play although the little fellow didn't feel much like playing. But after a five day stay at Tahoe Forest he is home doing fine, Mother Linda is also recuperating.

ENERGETIC LADIES

The lady golfers enjoyed another fun filled ladies day this past Monday June 30th with ladies from the lake area and Truckee participating. Hostesses for the day were Elsie Martin and Elsie Bechdolt. After an eighteen hole game the ladies drove up to the heated swimming pool in the Highland's Subdivision where they enjoyed lunch, refreshments and swimming. Winning prizes for their golfing were: Jean Henry, Nadine Neugebue, Norma Russell and Beccy Shontz. What is that old saying that women are the weaker sex - haven't noticed any men out for a brisk swim after 18 holes.

HOUSE GUESTS

Guests of the Ella Blake home were her daughter-in-law Erlene Barnes, her son Ricky Barnes, Stephen Wood and a friend Naomi Crearley, for two weeks. They just about shed tears when they had to leave the beautiful lake. They will be back.

WHITE CAPS

Sunday, yes, and white caps, no fishing or skiing, too bad because there were a lot of visitors. They were like ants at the casinos at the top of the hill.

LUCKY PEOPLE

Congratulations to the Walley Skaggs. May Skaggs tells me they have sold their motel on Fox St. known as the Silver Tip Motel. We are very glad for them, but shall hate to see them go. One good feature of the sale is that they can stay till October and then off to Iowa. Clarence and Birdie Smith were the lucky buyers from Hollywood.

ORDINANCES

So you never acquaint yourself with the County Ordinances? It is worth while to do so. Read them and don't ignore them — it may be costly. No fooling! There is an ordinance on trailers and of course, building licenses. When a notice is placed on a building, it is unlawful to tear them off and violations are to be strictly enforced.

NEW MOTEL

Mr. and Mrs. Jackson Brandt III, have started in earnest to build their motel at Tahoe Vista next to Sorensen's Motel. According to Jackson, it is going to be a real show place and will open in the very near future. Good for them!

SLOW START

After a very slow start the motel owners are, we hope, to reap quite a harvest during the season. The 4th of July promises to be a humdinger, as summer is really here—cool mornings—warm days.

FAMILY UP

Hugh and Mrs. Johnson, our summertime neighbors, their daughter Jerry, and her friend Sharon Howser are up for a stay. Brought some sweet boysenberries; are they ever good!

HOME FOR SUMMER

Glad to hear that the Milo Brownes have their daughter Gail from San Jose State, home for the summer. Pretty nice, huh?

CAL-NEVA OPENS

The Cal-Neva Lodge opened last Friday with a gallery of well known visitors.

IT'S A BOY

Yes sir, it's a boy and a big beauty. Michael Thomas, to be sure, born last Saturday night to Ray and Joy Plunkett of Crystal Bay Club. Congratulations, folks! That's three girls, one boy. Wonderful!

FOURTH OF JULY

Yes, this weekend and especially the 4th is a time to be proud of. So drive carefully — live and let live. Courtesy for one minute may save your life or someone's else. Enjoy yourself after the 4th. A happy 4th to all!

LETTERS to the EDITOR

Dear Mr. Barrett:

I wish to commend you for your recent editorial regarding the destruction of our song birds.

I have had a wild life sanctuary up here at my home at Soda Springs for years, and particularly do I feed and take care of hundreds of wild birds. The National Audubon Society high sierra camp use my yard for their ornithology classes at intervals during the summer months. I am brought wounded, sick birds to try to bring them back to health, as well as baby birds found helpless and in need of care to raise them to maturity.

For some time it has been my idea to write to you to put a piece in the paper, telling people or children who find wounded or baby birds, to bring them to me or let me know where thew are and I will take care of them.

Thank you.

Sincerely,
Mrs. Helen McCarty

SACRAMENTO (CNS) — The state department of public works has awarded a $97,891 contract for grading the yard and approach roadway and constructing drainage facilities at the division of highways Whitmore Maintenance Station on U.S. 40, about four miles east of Baxters.

The contract went to R. A. Westbrook, Inc., & Morrison-Knudsen Co., Inc., Sacramento.

COUNTY MAY SHARE IN HIGHWAY FUNDS

SACRAMENTO (CNS) — the California Highway Commission has allocated $5,191,904 in state and federal funds for county road construction in 56 counties.

This included $26,930 in federal aid secondary funds and $10,442 in state matching funds for Nevada county.

The allocation resulted from additional funds apportioned to California under the 1958 Federal Aid Highway Act. It includes $4,098,605 in FAS money and $1,093,299 in state highway matching money. It was in addition to $9,615,571 in FAS funds and $5,965,903 in state matching money which was apportioned under the regular FAS program last November.

Under the "speed-up" provision of the 1958 federal act, new county road projects undertaken with the additional funds must be under contract by Dec. 1, 1958, and be completed before Dec. 1, 1959.

Leave Fawns Alone Is Advise Of Department

If you feel the urge to "protect" an "orphaned" fawn while you are on your vacation this summer, better think twice about picking up the little critter.

There are two good reasons for letting it be:

(1) The animal is not an "orphan" and he's not "lost", and

(2) You stand a good chance of being fined, up to $500 for having a spotted fawn in your possession.

Each year many well- meaning, but misinformed, vacationers find fawns in the wild and bring them home in the belief that the animals are lost. But they aren't.

The Department of Fish and Game points out that these so-called "orphans" are never very far from their mothers. Usually their mothers are close by, but well hidden from your sight. The fawns are not at the mercy of their natural enemies, since they have practically no scent which would attract predators.

Occassionally fawns will wander away from the spot their mothers left them. Like human youngsters, they want to see the big, wide world al at once. This is usually when their human "friends" feel they are lost and need protection. But don't pick them up—the doe will find them.

MAGRA-COLFAX JOB IS NEARING FINISH

Division of highway officials said today that the concrete paving operation on the new section of freeway on Highway U.S. 40 from Colfax to the Magra Overhead will start this week. Work on the project has been in progress since January 1957.

The planned operation calls for the paving of a twelve-foot lane at a time through the 5.8 mile section. The work will not interfere with the movement of traffic on U.S. 40 .

The project is currently 66 percent completed and is expected to be placed in service for the traveling public about October first. The work is being done by Fredrickson and Watson Construction Company and Ransome Company of Oakland as a joint venture. The completed project will cost a little more than four million dollars.

SEWAGE PROBLEMS AT TAHOE STUDIED

The California Interstate Compact commission has adopted a resolution urging a meeting between compact commission members and representatives from state and local public health departments to discuss the problems of sewage disposal in the Lake Tahoe area.

Public health officials in both California and Nevada have repeatedly asked that sewage, whether treated or not, be kept out of the Truckee river and the lake.

However, State Water Director Harvey O. Banks of California called Tahoe "a water deficient area." He said the area needed all the water that it could get and treated sewage was water.

Banks said he did not believe the sewage would reduce the quality of the lake water by a significant amount.

Nevada County Shows Loss In Population

SACRAMENTO (CNS)—Nevada Co. was among the 13 which lost population during the year that will end June 30. California gained 562,000 residents in the 12 months for a new total of 14,752,000. The gain amounted to 1,567 a day.

Nevada county showed a loss of 300 persons during the 12 months. Population this July 1 was estimated at 17,900, as compared to 18,200 on July 1 1957.

Statewide, population continued the trend of the bigger counties getting bigger and the smaller ones continuing to decline.

The Washington or California palm tree, in its natural state, is found in canyons at the foot of the desert side of the Coast Ranges in Riverside and San Diego Counties.

TAHOE VFW POST IS HONORED AT MEET

CRYSTAL BAY — Six members of the Lake Tahoe Post and Auxiliary of VFW No. 7077 attended the 24th state convention of the VFW and Auxiliary held June 12 to 14 in Tonapah, Nevada.

National officers attending were Byron Gentry, 17th district council; Gertrude Rhiner, junior vice president, Deleware; Marie Klugow, deputy chief of staff, California; Virginia Gionatti, 17th district counncil, Nevada.

Communities of the North Tahoe area received a great deal of publicity, state and nation-wide through awards given the local and auxiliary. The groups won first place in the state in the national contest for community service work. Second place went to Las Vegas, third to Henderson and fourth to Elko.

Each of the top state winners are competing for the national awards which will be announced at the national convention in New York August 17 to 21. A "first" ever presented to an organization was given the local groups from the national polio foundation and honorable mention was given for the work done for handicapped and mentally retarded children and the TB chest center at Weimar, a year around project of the auxiliary.

Those attending the convention were Gene Faulkner, Thelma Liddle, Eddie Liddle, Bill Dugan, Vera Woods and Pearl Moore.

BECHDOLT DISCUSSES WATER AT CLUB MEET

TAHOE CITY — Although the member attendance at luncheon meetings of the Tahoe City Rotary Club continues to be low because the business of a number of the members keeps them out of town at noon, the number of visiting Rotarians is increasing. Twenty four members and 13 visiting Rotarians attended the June 24th meeting at Tahoe Inn.

Evert L. Lehman of Berni, Indiana, was the Rotarian fartherest from home. Lehman responding to the request of President Warren Porter to say something about his home town, said Berni is a very small town surrounded by farming of which soybean is the principal crop.

Club member, Bill Bechdolt, a member of the California-Nevada Interstate Water Compact Commission was asked by program chairman, Basil Kehoe, to inform the Rotarians on accomplishments of the commission, if any, in settling the question of the maximum high level of Lake Tahoe.

Bechdolt said he would answer no questions but, that he could advise that beginning early in July an inquiry will be made to learn the opinions of Lake Tahoe property owners and, especially the riparian owners, regarding the maximum high water level now established at 6229.1 feet above sea level.

This level was set in 1935 by an agreement between California and Nevada interests and the Federal Government after several years light winters that resulted in low water and pumping of water for irrigation in Nevada.

The more normal winters that followed brought the lake level to the 6229.1 figure and on several occasions owners of homes and resorts bordering the lake complained of damages to their properties. A number of these people are now asking that the maximum high be lowered by about one foot.

TO JACKSON'S STUNNED HORROR, THE MAHARAJAH SUDDENLY REAPPEARED--HE HAD ONLY FEIGNED DEATH!

"I'M AFRAID, MR. JACKSON, THAT YOUR GAME IS OVER," SAID THE MAHARAJAH QUIETLY. "THIS RHINO HUNT CONVINCED ME OF YOUR TREACHERY--"

"YOU SEE, I KNOW ABOUT RHINO. YOU WANTED ME TO GET CRUSHED BY A WOUNDED BEAST, AND THUS SAID TO SHOOT FOR THE STOMACH--"

"BUT I SHOT FOR THE HEART INSTEAD--THE BRUTE WAS QUITE LIFELESS WHEN I REACHED IT, AND I WAS ABLE TO DECEIVE YOU!"

7-6

JACKSON SCREAMED OUT IN FRUSTRATION AND RAISED HIS RIFLE. BOTH MEN FIRED SIMULTANEOUSLY--

Dick Van Buren
John Celardo

BUT ONLY THE INDIAN'S AIM WAS TRUE--AND THE VICIOUS HUNTER COLLAPSED IN DEATH!

NOW THE MAHARAJAH SMILED SADLY. "ALL THIS IS IRONIC--BECAUSE I HAD PLANNED TO *GIVE* HIM MY EQUIPMENT ANYWAY!!"
